## **Information to Authors**

The Indian Geographical Journal is published half-yearly in June and December by The Indian Geographical Society, Chennai. The UGC-Care listed / peer-reviewed journal invites manuscripts of original research on any geographical field, providing information of importance to geography and related disciplines with an analytical approach. The manuscript should be submitted only through the **online submission form** <https://forms.gle/SIfl1wodtvLEVpcV8>

The manuscript should be uploaded in Microsoft Word Document (.doc, .docx) as follows: 1) **Title Page:** Title of the Manuscript, Author Name and Address (complete postal address with contact details including phone and email ID) and acknowledgements (if any). 2) **Full-Length Manuscript:** The main text part should not contain the author(s) name or identities. The main text can be divided into the sections viz. Title, Abstract, Keywords, Introduction (Background/Literature review), Study area, Methodology, Results, Discussion, Conclusion and References. 3) **Tables:** All tables should be consolidated in a single MS Word document with proper captions and footnotes (if applicable). 4) **Figures:** All figures/graphs/charts/maps should be submitted in JPEG/PNG format within a single MS Word document. Each figure should have a concise caption describing accurately what the figure depicts. The tables and figures should be numbered in a sequence (Table 1, Table 2 etc. and Figure 1, Figure 2 etc.) and cited in the manuscript at appropriate places.

The title should be brief, specific and amenable to indexing. No more than five keywords should be indicated separately; these should be chosen carefully and not phrases of several words. The abstract should be limited to 100-250 words and convey the main points of the study, outline the methods and results and explain the significance of the results. Acknowledgements of people, grants, funds, etc., should be placed in a separate section in the title page. The names of funding organisations should be written in full. The title page should also be accompanied by a letter stating that it has not been published or sent to any other journal and will not be submitted elsewhere for publication.

Maps and charts should be submitted in the final or near-final form. The authors should, however, agree to revise the maps and charts for reproduction after the article is accepted for publication. If you include figures that have already been published elsewhere, you must obtain permission from the copyright owner(s) for both the print and online format. Please be aware that some publishers do not grant electronic rights for free, and it is informed that IGS will not be able to refund any costs that may have occurred to receive these permissions.

References should be listed in alphabetical order as per MLA format. The list of references (limited to 20-25) should include only the published works or sites that are cited in the main text. You may refer to the IGS website (<http://igschennai.org/IGJ.php>) for detailed guidelines.
