Information to Authors

The Indian Geographical Journal is published half-yearly in June and December by The Indian Geographical Society, Chennai. It invites manuscripts of original research on any geographical subject providing information of importance to geography and related disciplines with an analytical approach.

The article should be submitted in duplicate (the original typescript and a copy) typed in double-spaced (Normal, plain font like 10-point Times New Roman) of one side of A4 paper with a left hand margin of 4 cm and should not exceed 5,000 words. However, e-mail submission of the paper is preferred, and please e-mail the article to the editor (editorigs1926@gmail.com / kkumargeo@gmail.com).

The pages should be numbered consecutively, starting with the title page and through the text, reference list, tables and figures. The manuscript should be ordered as follows: Title page, abstract, key words, text, acknowledgements, references, tables, figures (on separate page preceding the first figure), figures (one figure per page; the figures should be labelled).

The **title** should be brief, specific and amenable to indexing. Not more than five **keywords** should be indicated separately; these should be chosen carefully and must not be phrases of several words. **Abstract** and summary should be limited to 100 words and convey the main points of the paper, outline the results and conclusions, and explain the significance of the results.

Maps and charts should be submitted in the final or near-final form. The authors should however agree to revise the maps and charts for reproduction after the article is accepted for publication. Each figure should have a concise caption describing accurately what the figure depicts.

If you include figures that have already been published elsewhere, you must obtain permission from the copyright owner(s) for both the print and online format. Please be aware that some publishers do not grant electronic rights for free and that IGS will not be able to refund any costs that may have occurred to receive these permissions.

Acknowledgements of people, grants, funds etc. should be placed in a separate section before the reference list. The names of funding organizations should be written in full.

References should be listed in alphabetical order, serially numbered at the end of the paper as per MLA format. The list of references should only include works that are cited in the text and that have been published or accepted for publication.

Journal Article

Haridas, V. K., Chandrasekaran, V. A., Kumaraswamy, K., Rajendran, S., & Unnikrishnan, K. (1994). Geomorphological and Lineament Studies of Kanjamalai Using IRS-IA Data with Special Reference to Groundwater Potentiality. *Trans. Instt. Indian Geographers*, 16(1), 35-41.

Thesis/Dissertation

Rutharvel Murthy, K. (2012). Assessment of Groundwater Vulnerability to Contamination using Geospatial Technology and Regional Scale Models in Vellore District, Tamil Nadu, India. *Unpublished Ph.D.Thesis*, Bharathidasan University, Tiruchirappalli.

The manuscripts should be accompanied with a letter stating that the article has not been published or sent for publication to any other journal and that it will not be submitted elsewhere for publication unless a declaration is received from the Indian Geographical Society. Further, the authors should also send name and address with e-mail ids and phone number of four referees to review the article.

Author's name and affiliation should appear in a separate title page and should contain Title, Authors, Affiliations, and e-mail address of the Corresponding author and should not appear anywhere in the text so that the article could be impartially assessed by a referee.

The soft/hard copy of the manuscripts should be mailed/sent to the following address:
